database is the result of a survey of more than 45,000 physicians in the United States. According to the organization, only those doctors recognized to be in the top 3 to 5 percent of their specialty earn the honor of being named one of the Best Doctors in America. The Best Doctors methodology is rigorously impartial and strictly independent. Doctors cannot pay to be included in the database and are not paid to complete the survey. "It's gratifying to know that so many of my peers recognized me as an expert in the field of dermatology," Jaffe said in press release announcing the honor.
