

Success At Work

Brian has been employed at Giovanni's (a family owned restaurant) for 19 years! He is a very dedicated employee. Even during snow storms when The Arc cannot provide his transportation he finds a way to work. Usually he'll call a manager. Brian's employers love him. Brian is a dishwasher but he also does food prep. Brian works six hours a day, five days a week and is very self- directed, requiring very little direction, if any.

Brian also has a good attitude concerning his job and he genuinely cares about the issues of the business and its customers. The reason he cares so much is because he feels he is part of the family and therefore takes personal ownership and pride.

Brian is loved and makes everyone else feel loved and appreciated and plays a BIG role in positive employee morale.

He is definitely a part of the team!
